TECHNICAL DATA

Technical details

Models	T@B 320	T@B 400
All Prices are stated in Pounds Sterling (GBP), and include UK VAT of 20%		
Style BASIC – Basic all around plastic trim without side wall stickers	£ 11.030,00	£ 17.800,00
Style MEXICAN SUNSET – Basic all around plastic trim incl. side wall stickers	£ 11.948,00	£ 18.997,00
Style METROPOLIS – Basic all around plastic trim incl. side wall stickers	£ 11.948,00	£ 18.997,00
Style OFFROAD** – Basic all around plastic trim incl. side wall stickers, striking attachments in OFFROAD optic	£ 13.360,00	–

Technical details	T@B 320		T@B 400
	BASIC	OFFROAD**	BASIC
Length including drawbar approx. in cm	517	517	597
Vehicle body length including bottle case approx. in cm	340	340	421
Vehicle body width approx. in cm / inside	201 / 180	201 / 180	225 / 204
Total height approx. in cm / inside	244 / 182	249 / 182	261 / 198
Unloaded weight (incl. basic equipment)*, approx. in kg	620	650	910
Mass in running order (kg)*	655	690	980
Tecnically maximum authorized laden mass (kg)**	750	1.000	1.200
Loading capacity, approx. in kg	95	315	220
Tyre size	195/55 R 15	205/70 R 15	205/65 R 15
Rim size	5 1/2 J x15	6 J x15	5 1/2 J x15
Bed dimension rear in cm	175 x 200	175 x 200	145 x 198
Bed dimension bow in cm	–	–	70 x 195
Number of roof hoods	1	1	2 + Sky View
Number of lamps 12 V / 230 V	3/-	3/-	9/-
Number of socket outlets 230 VT	2 + 1 USB	2 + 1 USB	4
Gas bottle locker on tow bar	2 x 5 kg	2 x 5 kg	2 x 11 kg

* incl. 100% fresh water filling; 100% gas; electricity supply; cable drum (for Style OFFROAD + T@B 400 = 45l; for T@B 320 = 20l canister standard). Maximum loading capacity (kg) in terms of the T@B catalogue = difference between technically maximum authorized laden mass and mass in running order. For further explanations please refer to page 5.

	Packages	List price package £
150007	Autarkpackage - T@B 400 Tuma boiler 10l for gas-fueled and electric operation with water holding capacity of 10l; 80 AH gel battery suitable for solar technology (equivalent to 100 AH lead - acid battery); battery alerter; battery capacity indicator via board control	£ 1.610,00
150005	12V volt package - T@B L 80 AH gel battery suitable for solar technology (equivalent to 100 AH lead - acid battery); battery alerter; battery capacity indicator via board control	£ 900,00

** The name «OFFROAD» only describes one of the vehicle's styling versions and neither justifies an authorized usability of the caravan, nor a quality agreement or a possible use after the purchase agreement or a suitability for a customary use.

Standard equipment	T@B 320		T@B 400
	BASIC	OFFROAD**	BASIC
General			
10 year impermeability guarantee (annual inspection by authorised dealer mandatory)	S	S	S
Chassis			
ALKO chassis with semi-trailing arm suspension	S	S	S
Servo-assisted handbrake	S	S	S
Anti-tipper assemblies	-	-	S
Rear lighting in LED technology an CatEye optic	S	S	S
Steel wheels 5 1/2 J x 15 " (tyres 195/55 R15)	S	-	-

Other					
951036	Registration papers	•	•	•	179,00

* Due to extensive road test there have to be added stabiliser for driving stability on mounting the base support/bicycle stand.

IMPORTANT INFORMATION

All caravans by T@B are delivered with a europe-wide 10 year impermeability guarantee (annual inspection by authorised dealer mandatory) and a 24 months warranty. Please note for all T@B caravans:

Please note for all caravans of the brand T@B:

Dimensions and weight data may vary ca. +/-5% due to tolerances of the natural raw materials used.

With any modifications done on the vehicle by a non-authorized dealer or garage you may put at risk your personal security and lose T@B operating licence and warranty. Therefore please leave reoperations and retrofits to the authorized T@B dealers and insist on T@B original equipment.

Retrofittings, if technically possible, will cause additional mounting and material costs. In exceptional cases some combinations of extras and options may occur as mutually exclusive.

We reserve the right to any technical modifications as to design, colour, and equipment, if technical improvement requires us to do so.

The contents of this list reflect arrangements at printing, in July 2018. It is effective as from 01.08.2018 for the 2019 model year. Previous lists are no longer valid. We reserve the right to change content at our discretion.

The water supply system is minimum state of the art (03/2009) (Regulation 2002/72/EG).

*) Annotation concerning weight data of your T@B caravans: T@B caravans come with generous permissible vehicle payload options.

By means of innovative solutions such as using high performance steel chassis' and honeycomb technology on furniture, low vehicle net weights are being realized.

The mass of the empty vehicle as referred to in the price list is the mass of the vehicle with standard equipment and without basic equipment, i.e. without "liquids" and without optional fittings as referred to in art. 2, ciff. 3 VO (EU)

Mass in running order, see Article 2, ciff. 4 a) VO (EU) 1230/2012, unless nothing different is regulated, is defined as follows:

Mass of the vehicle with standard equipment as referred to in manufacturer specifications:

- + Steel liquid gas bottles (5 kg/10 kg) filled to 100% (i. e. 10 kg/ 23 kg total mass)
- + Fresh water tank (filled to 100%)
- + Toilet flush tank (100 % full)
- + Fresh water boiler filled to 100%
- = Mass in ready-to-start mode

The "permissible total mass" see Article 2, ciff. 7 VO (EU) 1230/2012 is defined as follows:

The mentioned vehicle's maximum mass from the manufacturer in loaded state (incl. Optional equipment/extras/packages and gas, water, luggage and load, etc.)"

For you as T@B caravan user:

The maximum permissible payload as referred to in the T@B catalogue is defined as:

Technically authorized total mass - mass in running order = maximum permissible payload

Example:

(Technically authorized total mass) 1.400 kg

- (Mass in running order) 1.090 kg

= (Maximum permissible payload) 310 kg

Please note that maximum permissible payload as referred to in the catalogues, for example if the mass of the additional fitting is reduced.

Please note that your T@B caravan still must have a minimum payload capacity (= minimum payload) after deduction of optional equipment's mass from the maximum permissible payload, which may not be below the minimum payload (cf. attachment I, part D, para. 2.3.4.1 VO (EU) 1230/2012):

(Maximum number of berths + total length (in m) of the vehicle body) x 10 = Minimum permissible payload (kg)

Example:

[(Maximum number of berths) 4 + (total length (in m) of vehicle body) 5] x 10 = 90 kg

The mass of the vehicle with standard equipment according to manufacturer specifications is determined through weighing of the vehicle with standard fitting.

As a user of a caravan, you are required not to exceed the values of the permissible total mass in driving mode, and respective maximum permissible axle load and nose weight limits. Furthermore, you are obliged to adhere to all other requirements for a safe usage of your caravan.

The prices of our individual packages are fixed prices and cannot be changed because of additional options. Ordering optional equipment which substitutes specific package options will not be delivered additionally.

FACEBOOK.TABME.DE

The details regarding delivery scope, dimensions and weight as well as in terms of appearance are in line with the understanding at the time of printing (07/2018). We reserve the right to make changes to the equipment, technical details, the series scope and the prices.

Upon conclusion of the contract, technical changes within the scope of the construction are retained insofar as they serve the technical advancement and are acceptable to the customer. Subtle deviations in colour tone and material properties are reserved – even after conclusion of the contract. This applies insofar as these are unavoidable due to the material itself and are acceptable to the customer.
